

Carroll Electric would like to wish you a safe and happy New Year!

More Carroll Electric members are seeing the benefits of using eBilling and eDraft. Combined, these free services simplify the routine billing process and reduce administrative expenses for both our members and the Cooperative.

The same information, appearance, and lead time you get with a traditional, paper bill. Access your bill through a secure, online member portal called **myAccount**.

Your bill amount is paid automatically from your checking or savings account on your electric bill due date. Eliminates paying late fees or reconnect fees.

To enroll, either visit [www.carrollecc.com](http://www.carrollecc.com) or call one of our friendly customer service representatives at **1.800.432.9720**.

## did you know?

**NEW**

When you enroll your account in both eDraft and eBilling, we give you an eBundle discount on your electric bill.

Once processed, you will begin to receive this \$1.00 credit each month you remain enrolled in both programs for the same account.\*

Members already enrolled in both of these options on their account will automatically receive the eBundle discount.

\*The eBundle discount is limited to one member who participates in both electronic billing (eBilling) and electronic draft (eDraft) on the same account.

# 10 Quick Tips to Avoid High Winter Bills

Looking to lower your bills this winter? Use the 10 tips below to conserve energy.

- 1  Seal air leaks and insulate well to prevent heat from escaping and cold air from entering your home.
- 2  Reduce waste heat by installing a programmable thermostat.
- 3  Turn off lights when not in use.
- 4  Lower your water heater temperature. The Dept. of Energy recommends using the warm setting (120 degrees) during fall and winter months.
- 5  Unplug electronics like kitchen appliances and TVs when you're away.
- 6  Open blinds and curtains during the day to allow sunlight in to warm your home.
- 7  Close blinds and curtains at night to keep cold, drafty air out.
- 8  Use power strips for multiple appliances, and turn off the main switch when you're away from home.
- 9  Wash clothes in cold water, and use cold-water detergent whenever possible.
- 10  Replace incandescent light bulbs with LEDs, which use at least 75 percent less energy.
